

Appendix M

Summary of Agency Coordination

Agency	Date of Engagement	Coordination Description
United States Army Corps of Engineers	11/3/2023	An Approved Jurisdictional Determination was completed for the project area and submitted to the USACE. The Approved Jurisdictional Determination revealed no wetlands or WOUS within the project area; but 12 non-jurisdictional ditches and two non-jurisdictional stormwater ponds were identified. The USACE agreed the project area contained no wetlands or WOUS on June 14, 2024. Correspondence with the USACE is provided in Appendix D .
United States Fish and Wildlife Service	8/16/2023, 3/20/2024, 6/19/2025, and 8/14/2025	The project area was reviewed using USFWS's IPaC, which revealed no federally listed T&E species with the potential to occur within the project area. The IPaC results, the project description, and project figures were provided to USFWS in August of 2023 and their comments on the project were requested. As of the date of this EA, the USFWS has not responded to the request for project comments. IPaC was reviewed again and a no effect determination given for Northern-long eared bat and Tricolored bat on August 14, 2025. Correspondence with the USFWS is provided in Appendix F .
Virginia Department of Conservation and Recreation	8/3/2023, 3/20/2024 and 8/12/2025	The project area was submitted through VDCR's NHDE. Comments received from VDCR on August 3, 2023 and August 12, 2025 indicate no natural heritage resources were identified within the project area or a 100-foot buffer, and therefore no further correspondence would be sent from their office. Correspondence with VDCR is provided in Appendix F .
Virginia Department of Environmental Quality Virginia Water Protection	11/3/2023	A State Surface Waters Determination was completed for the project area and submitted to the VDEQ. On November 21, 2023, the VDEQ confirmed a VWP permit or permit coverage would not be required for the 12 identified roadside ditches or two identified stormwater ponds. Correspondence with the VDEQ is provided in Appendix D .
Virginia Department of Historic Resources (State Historic Preservation Officer)	11/7/2023	Section 106 coordination with DHR occurred November 2023 through March 2024. On March 21, 2024, DHR concurred the project would have no adverse effect on historic resources. Correspondence with DHR is provided in Appendix I .
Virginia Department of Wildlife Resources	8/16/2023 and 8/14/2025	The project area was initially reviewed in 2023 using DWR's VaFWIS and WERMS, which revealed no state listed T&E species within the project area or a two-mile radius. An update review was conducted in 2025 using VaFWIS, which revealed evidence of state threatened Peregrine Falcon (<i>Falco peregrinus</i>). The VaFWIS results, the project description, and project figures were provided to DWR and their comments on the project were requested. DWR responded to this request on August 14, 2025, stating that they were unable to provide comments. Correspondence with DWR is provided in Appendix F .
